

Welcome to Fourth Grade

Dear Incoming Fourth Graders,

I am so excited to have you in my fourth grade class this year! We are going to learn so many new things and engage in so many activities. The most important thing you can do over the summer is to practice your multiplication facts. We will be doing a lot of multiplying and dividing in fourth grade, and math will be so much easier if you know your facts!

We will also be reading a lot of great books in fourth grade, so I would love you to keep your brain sharp by reading over the summer. In order to encourage you to read this summer, I have given you a “Summer Read Bingo Board.” You can try to get Bingo with a straight line horizontally, vertically or diagonally. I have also included a list of books you may enjoy, but you can read any books that are at grade-level.

Along with the summer reading suggestions, you will find the supplies needed for fourth grade. The first group of supplies are for the classroom community. This will be kept in the classroom so everyone can use them. The second group of supplies are ones that will be needed by each individual student. Doing activities in the classroom is always easier when students have their own supplies in their desks to use.

I hope you all have a great summer and I can't wait to see you all in September!

Sincerely,

Mrs. Shea
