

## Grade 7 Supply List

Welcome to 7th grade! I am excited to spend more time with you in class and help you prepare for the 8th grade (and high school)! As you are traveling between classes, the big, bulky binders can be hard to hold. I have found that individual notebooks and folders are easiest to carry.

For each of your classes, you should have a dedicated two-subject notebook with a separate folder to hold worksheets. In math, you will remember that I expect you to use pencils and show work for all assignments done. For this reason, you should have plenty of pencils, erasers and a separate pack of loose-leaf paper so you can attach your work to your assignments. Here is a list of the supplies you will need:

- Dedicated two-subject notebook **and** a separate folder for math
- Dedicated two-subject notebook **and** a separate folder for literature
- Dedicated one-subject notebook **and** a separate folder for religion
- Dedicated one-subject notebook **and** a separate folder for Spanish
- Book Covers
- Extra loose-leaf lined paper for showing work in math
- Plenty of pens
- Plenty of pencils
- Eraser toppers **or** a couple of good erasers
- Ruler for math class
- 1 TI-34 series Scientific Calculator (Texas Instruments)
- Individual pencil sharpener
- Pencil case to transport pencils between classes
- Individual reading book to quietly read when finished with work

### Summer Reading Books:

Before we left in June, I went over the summer reading assignments with you. When we return in September, we will be discussing the books and completing an assignment with them. It is important that you bring the books to school with you so that you will have them handy for the discussion and assignments. In case you forget, the books you need are:

- I Am Malala
- Johnny Tremain

### Art Supplies:

I like to do projects, posters and activities in each class to reinforce ideas and concepts we are learning. For this reason, I would like everyone to have art supplies at their desks in order to complete these projects.

- Crayons/Colored Pencils
- Markers
- 4 Glue Sticks
- Scissors
