

Welcome, Future 5th Graders!

A message from Mrs. Koulopoulos

Hi there! I hope you are having an awesome summer. I can't wait to be your teacher this year — fifth grade is going to be full of fun new things to learn!

This summer, here are three ways you can get ready for a great year:

- ★ Practice your multiplication facts — we will use them in math every single day!
- ★ Returning students - Do 30 minutes of IXL math practice each week. Log in with the same username and password you used this past year — no new account needed. By the end of summer, try to reach 330 minutes total on grade-level skills.
- ★ New students – play online math games, such as Prodigy Math or Boddie Learning!
- ★ Visit your library and read, read, read! Ask if they have a fun summer reading program.

On the next page is your supply list for next year. A few important notes:

- ★ Please don't bring a binder — it won't fit in your desk.
- ★ The school will give you a 10-pocket folder to keep all your work organized.
- ★ You will also get an agenda to help you write down your assignments each day.

I am so excited to meet you and start this new adventure together!

See you soon,

Mrs. Koulopoulos
